

Photo shows an RGB Burlington design custom built for an individual RGB homebuyer and may show optional features which vary from the standard plan. Refer to the floor plan for standard plan features which you may customize to make your new RGB home everything you want it to be.

The Burlington Design

SQUARE FOOTAGE SUMMARY*

Upper Level	1,461
Finished living space	1,461
Unfinished Living Space	542
Two-car Garage	533
Utility/Storage Space	206

All your “must-haves” and more have come together in this 3 bedroom, 2 bath home that provides an easy way in to totally easy living, while delivering the capacity to grow into over 2,000 square feet of living space to meet any preferences you may have for additional rooms.

Eight steps up from the entry foyer is a great room that lives up to its name with fireside lounging, deckside dining and a kitchen more generous than most with its cabinetry and countertop workspace.

Look for the name brands you know mean quality, and check out RGB Quality Building Features at www.RGBhomes.com

All 3 bedrooms enjoy the benefits of a walk-in or wall-wide closet, while your own private suite provides a soaking tub retreat at the end of a busy day.

With the right-now conveniences of the lower level laundry, utility room storage, and the 2-car garage, the only things missing are the personal furnishings, family photos and fancies that will make this very comfortable house your home.
