Photo shows an RGB Arlington design custom built for an individual RGB homebuyer and may show optional features which vary from the standard plan. Refer to the floor plan for standard plan features which you may customize to make your new RGB home everything you want it to be.

The Arlington Design

SQUARE FOOTAGE SUMMARY*

1st floor	1,602
2nd floor	1,375
Finished living space	2,977
Optional Basement	1,602
Two-car Garage	502

Generous proportions and custom stonework highlight this estate-styled home where 5 bedrooms invite flexible use, 2 1/2 baths provide convenience, and every room is wonderfully windowed to be airy and bright.

From a 2-story gathering-room foyer where a decorative oak-railed stair leads to overview balconies, through its deckside breakfast room, center-island kitchen, graceful archways, and spacious family room and formal rooms, this home caters to active families and those who love to entertain in style.

And your private suite is no less complete — with its own sitting room, two walk-in closets, and a well-appointed bath with dual vanities, a large shower and a sumptuous soaking tub. When ordinary just won't do, the Arlington may be the perfect place to start planning your personally perfect RGB home.
