

Artist's rendering shows the new RGB Hemingway I design which can be custom built for you with all the personal touches that will make your new RGB home, everything you want it to be.

The Hemingway I Design

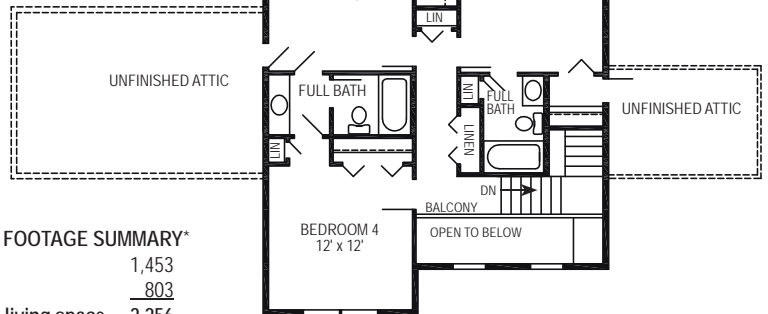

A lot of good living is amply delivered in this handsome 4 bedroom, 3 1/2 bath home — from its covered porch and 2-story entry, through spacious, sun-filled rooms to the backyard's party deck.

Formal and casual dining (and anytime snacks) are well served from the super-efficient kitchen, thanks to all the cabinetry and counter space, plus a sit-down service bar right next to the breakfast room bay. Just steps away, patio doors access the deck from a family room suited and sized for entertaining fireside gatherings of family and friends.

Notice how the beautifully arranged bedrooms provide two complete and well-appointed suites — yours on the first floor (with a sumptuous soaking tub retreat) — and the second full suite upstairs, where the two additional bedrooms easily share their own divided full bath.

Check out the number of walk-in, wardrobe, coat and linen closets, and the storage space available in the laundry room and over-sized garage, as well as the potential in the unfinished attics — and know that comfort and convenience are built-in benefits in this exceptionally well-planned home.

Then look for the name brands you know mean quality and check out the RGB Quality Building Features at www.RGBhomes.com. Now your homework is done, so you can be totally confident in selecting this proud and impressive RGB home.

SQUARE FOOTAGE SUMMARY*
